

# One-Click Cleaners

**One-click Cleaner** is a high-performance and easy-to-use fiber tool which is designed to clean both the male connector ends and female bulkhead adapters (Ferrule end-faces inside the adapters). This instrument cleans the ferrule end-faces removing dust, oil, and other debris without nicking or scratching the end-face. It includes two types, one is for FC, SC, ST, and the other is for LC and MU.

## Features:

- Easy pushing motion engages connector and initiates cleaner
- Disposable with 800+ cleanings per unit
- Cleaning micro fibers are densely stranded and debris fiber
- Extendable tip reaches recessed connectors
- Cleaning system rotates 180 degrees for a full sweep
- Audible click when engaged

## 2.5mm One Click Cleaner

- Designed for cleaning bulkhead, patch cables and test equipment
- Good for FC, SC, ST connectors
- 800 cleans per unit
- Extendable wand length for hard to reach areas
- Perfect for cleaning test equipment
- Simple push style to advance tape, one handed operation
- Tape rotates as it advances to increase cleaning efficiency.
- Built from anti-static resin
- Competitively priced

## 1.25mm One Click Cleaner

- Designed for cleaning bulkhead and patch cables with 1.25mm ferrules
- Perfect for LC connectors
- 800 cleans per unit
- Extendable wand length for hard to reach areas
- Perfect for cleaning test equipment and SFPs
- Simple push style to advance tape, one handed operation
- Tape rotates as it advances to increase cleaning efficiency.
- Built from anti-static resin
- Competitively priced
